LETTER OF RECOMMENDATION FOR LUH "KIERA" SENENG  
Re: College/Work

To Whom It May Concern:

I am pleased to recommend Kiera Seneng for college admission and/or job opportunities. Kiera has been my student in English classes at the Center for Advanced Research and Technology (CART) since August 2020 as she completed both the Cybersecurity and the Web Application Development labs. It has been a pleasure to see her grow academically and professionally.

Due to COVID, Kiera attended the Cybersecurity lab primarily online via daily Zoom meetings and asynchronous assignments. Kiera performed well online but even better when we returned to in-person classes. She is a quiet person who sometimes finds communication difficult; nevertheless, when we returned to in-person learning, she found her niche at CART. In the labs, she produced work using a wide variety of computer programs, including *Canva*, *Wix*, and Adobe pages, and other software used to produce workplace documents related to cyberattacks and other technological breaches.

This year in the Web lab, Kiera wrote text based on research on a variety of topics, including Tourism, Time Travel, "Choose Your Own Adventure", and other areas of focus. Kiera's writing is accurate and professional in nature and research is cited clearly. Moreover, she seeks feedback when unsure how to proceed on a task.

Professionally, Kiera has excellent attendance and punctuality and conducts herself in a professional manner. She is mature for her age and focused on finding the career that she is passionate about. She is creative and intelligent and would be an asset to any college or place of employment. Feel free to contact me at [jodisilva@cart.org](mailto:jodisilva@cart.org) if you require additional information.

Sincerely,

**Jodi Silva**
